HOLLOWAY'S OINTMENT.

THE GREAT COUNTER IRRITANT

THE subscribers have just set up a complete set of new and improved machinery for the The virus of disease often makes its way to the internal organs through the pores of the skin. This penetrating Ointment, melting under the hand as it is rubbed in, is absorbed through the same channels, and, reaching the seat of inflammation, promptly and invariably subdues it, whether located in the kidneys the liver, the lungs, or any other important organ. It penetrates the surface to the interior, through the countless tubes that communicate with the skin, as summer rain passes into the fevered earth diffusing its cool and regenerating influence. SKIN DISEASES AND GLANDULAR

SWELLINGS. Every species of exterior irritation is quickly educed by the auti inflammatory action of th Ointment. Angry ERUPTIONS, such as SALT RHEUM, ERYSTPELAS, TETTER, RINGWORM, SCALD HEAT, NETTLE, RASH, SCABLES, (or ITCH) &c., die out, to return no more, under its application. Hespital experience in all parts of the world proves its infallibility in diseases of the skin the muscles, the joints, and the glands.

THIS article is confidently offered to the pub I lie as a Sussitive for CREAR OF TARTAN, or domestic use. The high price which Cream of the secondaries, together with the anarming extent to which its dangerous adulteration has been carried, warrants us in offering the unequalleubstitute, prepared by one of the most skillful The following true comparison of its nature and results of its use, with those of Cream of Tar

tar, will convince the most incredulous of its val-Cream of Tartar is a bi-tartrate of potash. Its Substitute is a simple phosphare, and contains noth-ing but what is found in beef-steak, corn, wheat and other cereals, and is therefore highly nutritious. Cream of Tartar, as every body knows, makes tasteless. Substitute produces cold bread and cake which are sweet, most, and grateful to the pulm Cream of Tartar, in cooking, requires the use of

considerable shortening; the Suastriute requires Cream of Tartar has no healthy action in food, n the system, and supplies nothing which the ody requires. The Substitute has a health-giving influence, and supplies that for which there is a coninual demand in the system. It is made of uniform strength, equal in all cases pure Cream of Tarter, and consequently can al-

ways be relied upon. The following are Extracts from Certificates. taken from a large number in possession of the DR. C. T. JACKSON, of Boston, State Assayer, "I have examined Professor Horsford's Cream

of Tartar Substitute, and his Yeast Powder, and find them to be suitable for bread making, and I have made use of them in my family cooking, for a brief period, with success. "The Cream of Tartar Substitute is chiefly an acid phosphate of lime, and in mixing with the flour is made to act on super-carbonate of soda, so as to produce neutral phosphate of lime, and phosphate of soda, and to give off carbynic acid gas -The resulting salts, are, so far as my observation goes, harmless to the constitution, and in many cases will doubtless act beneficially on the system." "I have found that these powders produce good and light bread, of a pleasant flavor and quite

Dr. Nichols, a distinguished chemist, having a laboratory at No. 7. Central street, Boston, says of the Substitute, in a letter under date of May 1859:-"I have no hesitation in recommending it to the public, as a wholesome substitute for b tartrate of potassa, or Cream of Tartar in bread making. It is found in wheat and other cereals, and indeed in every variety of vegetation introduced into the animal economy through the agency of food, and then subserves a very important end in sustaining vitality and health."

PROFESSOR SHEPARD, of Providence, says:oubtedly a most useful and important invention. It is substituting a perfectly innocent and harm-less substance in the place of one, the continual

ase of which has long been known to produce se rious gastrie disturbances." Gentlemen:—From an examination of a sample of Professor Horsford's Cream of Tartar Substitute, as well as from a knowledge of the process by which it is prepared, we have no hesitation in recommending it as a cheap and valuable substitute for the article now so universally used, and we believe its use to be beneficial rather than pre-

judicial to the health. Yours, respectfully, EVERETT & LIVERMORE, Analytical Chemets. DR. C. C. HOLCOMB, of Lee, Mass., says: "Against the use of the Cream of Tartar Subitute, to which you have called my attention, no rational objection can possibly obtain. It cannot fail to do all in the process of bread making that Cream of Tartar can do, and yet by no chemica

change can its constant use become injurious to the animal economy. DR. C. Wiggis, of Providence, R. I., says: While the continued use of Cream of Tartar. and its constant introduction into the system through the medium of a prominent article of ood, cannot fail of producing injury, that of it "Substitute," being in its nature highly nutri-tions, and healthful in its effects on the animal organism, must as certainly contribute much to the welfare of those who use it."

From a Forwarding Merchant of St. Jonis, Phb. 4, 1856. From a Forecarding Merchant of St. gaust, Feb. 4, 1885.

In. Aren: Your Pills are the purgen of all that is great in medicine. They have cured ay little daughter of ulcerous sores upon her hands and is that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimps on her skin and in her hair. After our child was cred, she also tried your Pills, and they have cured her.

AS. MORGRIDGE. As a Family Physic. From Dr. E. W. Cartwright, Aw Orleans.

Your Pills are the prince of purgs. Their excellent qualifies surpass any cathartic we issues. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Jultimore. Dan Ma Ares: I cannot answer you what complaints have cured with your Pills beter that to say all that we ever trent with a purpative mediane. I place great depen-dence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly. PINTSHURS, Pa., May 1, 1855.

Ds. J. C. Args. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to srise from a foul stomach, Yours with great respet, ED. W. PREBLE, Bilious Disorders - Liver Complaints. Prom Dr. TheodoreBell, of New York City.

Not only are your Pills dimirably adapted to their purpose as an aperient, but I ind their beneficial effects upon the Liter very marked sided. They have in my practice proved more effectal for the cure of bilious com-

plaints than any one renedy I can mention. I sincerely rejoice that we have at ength a purgative which is wor-thy the confidence of the profession and the people. DEBRIKENT OF THE INTERIOR, WASINGTON, D. C., The Feb., 1856. SETS: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best rathertic we employ. Their regulating action on the liver is quick and decided, consequently they are an simirable remedy for derangements of that organ. Indeed, I have seldom found a case of bifour disease so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,

I'mysiciam of the Marine Hospital.

Dysentery, Darrhes, Relax, Worms. From D. J. G. Green, of Chicago.

Your Pills have hid a long trial in my practice, and I hold them in esteen as one of the best apprents I have ever found. Their illerative effect upon the liver makes them an excellent renedy, when given in small doses for billious dynamicry and distribute. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, impurity of the Blood. Dr. Aran: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To egulate the organs of digestion and purify the blood, they are the very test remeily I have ever known, and I can confidently recommend them to my friends.

Yours, J. V. HIMES. my friends. Wars.**, Wyoming Co., N. Y., Oct. 24, 1855. Dran Sin: I air using your Cathartic Pills in my pro-tice, and find them an excellent purgative to cleanse to system and purity the fountains of the moon.

Too much cannot be said of your Pills for the cure of
cottreness. Hothers of our fraternity have found them
as effications as I have, they should join me in proclaiming is for the benefit of the multitudes who suffer from
that compaint, which, aithough had enough in itself, is
the procenition of others that are worse. I believe contraction to originate in the liver, but your Pills affect that
agan and cannot be disease.

I find one is two large doses of your Pills, taken at the proper time, are excellent promotives of the natural sortion when whole or partially suppressed, and also very difficult to decade the stomach and expel worms. NEW ENGLAND AILMENTS

THE Eastern States, including New York and that section of the Union which is ly known as "New England," con tain a thrifty, industrious, intelligent people who have achieved an uncommon digree of prosperity: with a climate extremely trying to pertain consultations, and a soil of small firtil ity, they have contrived to surpass more favores communities in almost every thing that conduces to social comfort and happiness. Un fortunately, they are occasionally so absorbed n business and mental cultivation, that they norfest the precautions which are essential to bothly health. Dyspepsin and physical debility are prevalent among all classes. The first disease is produced by inattention to the digestive organs, which are so susceptible of derange Thousands are now paying the penalty of this neglect, and suffering daily the most trying pains, almost without a hope of relief. They have come to believe that their silment chronic, and that they must bear with it to the end. It gratifies us exceedingly to announce to these afflicted individuals that they may now command a remedy of unquestionable notency and virtue, which has never been four o full in all cases of digestive weakness or derangement. Hundreds of tongues are ready to

grow elequent in praise of this wonderful conqueror of dyspepsia, which is known as DR. J. HOSTETTER'S

But that numerous class who devote them-

selves to literary and other sedentary pursuits and in consequence of a want of physical exercise, become the victims of languor and debility, without nerve or appetite, have hitherte sought in vain for some invigorating, life-giving medicine, whose effects upon the system shall be both speedy and permanent. Physicians of eminence, and profoundly acquainted with the HOSTETTER'S BITTERS as the safest and swiftest stimulant to the recuperative entrain of the system yet discovered. It restores to appetite, gives fresh vigor to the digestive organs, sends the blood through the veins more lively current, corrects a tendenty depression of spirits, and fits a man for the transaction of business with a cheerful learn and an active mind. Unlike other maleines which have been devised for the same object. the BITTERS do not act spannishmen or with a temporary power - the influence the remedy is lasting. And if a patient wi but give some attention to securing prope two, after the relief has been afforded, be fear no return of the affliction o The y natural to the encroachments of years the bodily frame is also alleviated by great strengthening medicine, thus enabling aged to pass their declining days in physica hereas they are now suffering from extreme wakness and nervousness thes of people, HOSTETTER'S BITTPARS may be commended as inva-able. The proprietors of this invigorator have in addition, a deep gratification in assuran NURSING MOTHERS that they will be the BITTERS the best and safest orntives. Very few medicines ar
